

"I decided to pick a book from my childhood: a story of feeling like an outsider as a teenager but it's set on a colony on the Moon. It's a relatable experience and I loved the extreme setting & fun ideas about future life & tech (it was the 80s!)"

'This Place Has No Atmosphere' is Dr Kierann Shah's best pick.

Go with the flow. We were not born to stand still, those that do will always ache for places they'll never visit.
